A small, brown bird, likely a pipit, is standing on a grassy field. The bird has a slender body, a long beak, and is facing left. The ground is covered with green grass and scattered brown debris, including what appears to be a piece of wood or bark. The lighting is bright, suggesting a sunny day.

A photograph of a Red-faced crombec bird perched on a thin, light-colored tree branch. The bird is facing downwards and to the left, with its head tilted. It has a prominent reddish-brown face and throat, a greyish-brown back, and a white belly. The background is a dense network of tree branches and green foliage, slightly out of focus. The lighting is bright, suggesting a sunny day. A teal-colored text box is located in the bottom-left corner of the image.
